BTW2PA 2022

It was so nice to have our Authorized Trade Representatives here in PA finally after 2 years.

The ATR's sat through out the day meeting with different companies from within our regions of Blair, Bedford, Cambria, Huntingdon, Fulton and Somerset.

The meetings seemed to be successful for the companies and with these connections the companies will be able to move into new markets as well as renew connections that were lost through the pandemic.

We were also pleased to have join us at our event SAP&DC PTAC, PennTAP, ABCD Corp., JARI & Somerset Trust Company, thank you so much for being part of our event.

We would also like to thank Commissioner Thomas Chernisky, Representative Jim Gregory, Commissioner Scott Hunt, Senator Judy Ward, Michele Ivory from Senator Judy Ward’s Office, Commissioner Amy Webster, and Attorney George Gvozdich.

I look forward to seeing the ATR's again next year!

- Services of the Commonwealth’s trade representative
- Follow-up assistance after the mission

WHY THESE MARKETS?
THAILAND
- With a 2020 GDP of $501.6 billion, Thailand is the world's 22nd-largest economy. Thailand is an attractive market for Pennsylvania companies as exports of goods have grown double-digit YoY - from $100 million in 2019, to $235 million in 2020, and to $415 million in 2021, according to data from the U.S. Census Bureau.
- Thailand is an upper-middle-income country with an export-driven economy and a strong, diversified manufacturing base across sectors such as automotive, electronics, and food. Notably, it is the 12th largest automotive producer in the world.
- Pennsylvania's top exports to Thailand in 2021 were mostly metal machinery and parts, followed by vehicle parts, mechanical equipment and parts, and miscellaneous chemical products.

VIETNAM
- Vietnam is one of the fastest-growing economies in the world. In 2020, even with the impact of Covid-19, its economy grew by 2.91%, increasing its GDP to $271 billion. According to U.S. Census Bureau data, PA’s exports of goods to Vietnam also bucked the trend, expanding from $85 million in 2019 to $109 million in 2020, and $133 million in 2021.
- Vietnam is a fast-rising star in global production, particularly as labor-intensive manufacturing shifts from China to Vietnam. It also has a large domestic market, with a population of 98.51 million and a middle class that is forecasted by the World Bank to grow from 18% in 2019 to 26% of the population by 2026.
- Pennsylvania's top exports to Vietnam in 2021 were pharmaceutical products, medical instruments, woods, meat products, plastics, and miscellaneous chemical products.
